

Spray Safely and 360° with CryoDose TA Medium Stream

CryoDose TA Medium Stream, 115mL (item #1803) comes in a modern aerosol spray canister that now sprays 360°.

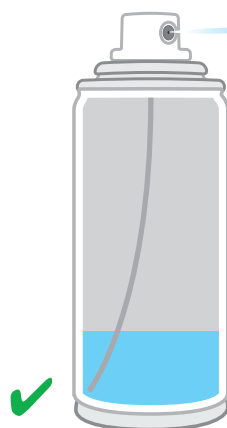

- You can now quickly and accurately spray at any angle.
- New feature makes the application process easier; enhancing the user experience.
- Still nonflammable, non-toxic, and HAZMAT-free.

Helpful Tip:

Like any aerosol canister, as it gets almost empty, the intake tube may not reach the contents if held **horizontally**.

Hold the can **vertically** so intake tube can reach contents. You can also twist the actuator a ½ turn.
